Las Vegas Makes
Record In Divorce

If there is a case on record where the mills of justice ground out a divorce in quicker time than happened in the case of Louise Miller versus Lawrence Miller, before the District court December 18th, we have not heard of it. Los Angeles may be some divorce town when quantity is considered, but for swiftness Las Vegas can claim the record.

At 7:30 on the evening mentioned court was in session closing up matters of business. At 7:31 the attorneys for the plaintiff filed the complaint with the clerk. The defendant being in town, he was found on the street and served with a summons and copy of the complaint at 7:35. Having read the complaint, the defendant immediately wrote an answer in which he admitted the matters set forth in the complaint, taking his answer to the court room and filing it with the clerk at 7:40. At 7:45 the case was called for trial, the plaintiff testified, the papers were examined, the matter taken under advisement, and the decision made by the court and decree entered by the clerk so that at 7:50 the plaintiff left the court room in company with her attorneys a single woman, with the legal custody of her minor daughter.—Las Vegas Age.

A New Camp Started
Bullion canyon, another camp in the Humboldt range, is coming into prominence. Boyd and Brown are owners of a property which gives excellent encouragements as a coming producer. In an open cut from a seven inch vein they obtained an assay of \$369 in gold and 247 ounces in silver. The owners will begin sinking a shaft at once and expect to have out a shipment in the near future.

Why It Pays
A successful business man, commenting on advertising, says: That "the small town paper will bring 75 per cent better results to advertisers than the big twelve or fourteen page papers of the cities, for the reason that the small paper is thoroughly read by the home folks."

Reno Has New Librarian
The promotion of E. N. Damon to be librarian of the Reno Free library, was announced yesterday by the board of trustees after a meeting held Wednesday night when the selection was agreed upon. J. H. Miles was appointed assistant librarian to take Mr. Damon's place.

THE KNOCKER'S PRAYER

Lord, please don't let this town grow. I've lived here for thirty years and during that time I have fought every public improvement; I've knocked everything and everybody; no firm nor individual has established a business here without my doing all I could to put them out of business; I've used every underhand method known to the fraternity of knockers to injure their business; I've lied about them, and would have stolen from them if I had had the courage; I've done all I could to keep the town from growing; never have I spoken a good word for it, but instead I've knocked it hard and often.

It pains me, O Lord, to see that in spite of my knocking this town is beginning to grow. Some day, I fear, I will be called upon to put down sidewalks in front of my property, and who knows but that I may have to keep up the streets that run by my premises? This, Lord, would be more than I could bear. It would cost me money, and I could not afford to pay out money, though all I have was made right here in this town.

Then, too, more people might come if the town begins to grow, which would cause me to lose some of my pull. I ask, therefore, to keep this town at a standstill at least, that I may continue to be the chief knocker. Amen! Amen!—Exchange.

Auto Licenses

Secretary of State Brodigan reports that the automobile owners of the state are complying with the auto license law for the new year much more rapidly than he anticipated. In this morning's mail he received fees for forty-seven new licenses. About 150 were received during the latter part of December.
